The Bachelor of Science in Communication Sciences and Disorders

The Bachelor of Science in Communication Sciences and Disorders is designed for students who want to work with children and/or adults in school settings, private clinics, and medical settings. This program will equip students with the knowledge and clinical skills to obtain a Speech-Language Pathology Assistant license in the state of Texas as well as pursue a graduate degree in Speech-Language Pathology or Audiology. Upon completion of this program, the students will have the ability to:

- recognize common speech, language and hearing disorders in both children and adults based on their understanding of lifespan human development, cognitive science, acoustics, and language science;
- use critical thinking skills to communicate various concepts, interpretations and theories related to communication sciences and disorders both orally and in written form;
- provide speech and language therapy to children and adults with communication disorders under the supervision of a fully licensed speech-language pathologist.
