The Division of Health Sciences includes the College of Health and Clinical Professions, the College of Kinesiology and Sport Science, and the College of Nursing. The division offers a number of academic degree programs, including undergraduate and graduate degree programs.

Mission

The Division of Health Sciences champions a comprehensive learning environment to cultivate interprofessional practice through interdisciplinary experiences that develop competent leaders dedicated to advancing health, well#being, and community-centered care.

Vision

The Division of Health Sciences will be the premier health science division whose graduates are compassionate, transformational leaders for the various communities they serve.
